

Palladium-catalyzed direct (di)arylation of 2-benzyl-1,2,3-triazole: a simple access to 4-aryl- or 4,5-diaryl-2-benzyl-1,2,3-triazoles and phenanthro[9,10-*d*][1,2,3]triazoles

Short text : Conditions for the direct mono- or di-arylation of 2-benzyl-1,2,3-triazole using phosphine-free Pd(OAc)₂ catalyst are described. This C-H arylation method was applied to the easy synthesis of π -extended phenanthro[9,10-*d*][1,2,3]triazoles.
